### (2) Derivatives

The following is a summary of the notional contract amounts of each significant type of derivatives:

	30/6/2002 (audited) HK\$'000	31/12/2001 (audited) HK\$'000
Exchange rate contracts		
Forward contracts	8,931,101	5,740,243
Interest rate contracts		
Interest rate swaps	3,425,745	2,364,723
	<u>12,356,846</u>	<u>8,104,966</u>

Exchange rate contracts mainly comprise transactions initiated in response to customer demand. No significant positions are maintained by the Group.

The interest rate swaps were undertaken to hedge held-to-maturity securities. Interest income and expense are recognised on an accrual basis equivalent to the basis of the underlying asset being hedged.

The Group did not enter into any bilateral netting arrangements during the financial period and accordingly the following amounts are shown on a gross basis.

As at 30th June 2002 and 31st December 2001 the contract amounts, credit risk weighted amounts and replacement costs of the above off balance sheet exposures are as follows:

	Contract amount 30/6/2002 (audited) HK\$'000	Credit risk weighted amount 30/6/2002 (audited) HK\$'000	Replacement cost 30/6/2002 (audited) HK\$'000	Contract amount 31/12/2001 (audited) HK\$'000	Credit risk weighted amount 31/12/2001 (audited) HK\$'000	Replacement cost 31/12/2001 (audited) HK\$'000
Contingent liabilities and commitments	25,999,071	3,683,772		21,388,375	3,421,776	
Derivatives						
- Exchange rate contracts	8,931,101	75,158	70,453	5,740,243	47,309	25,002
- Interest rate contracts	3,425,745	49,218	90,231	2,364,723	9,647	7,978
	<u>38,355,917</u>	<u>3,808,148</u>	<u>160,684</u>	<u>29,493,341</u>	<u>3,478,732</u>	<u>32,980</u>

Contingent liabilities and commitments are credit-related instruments which include acceptances, letters of credit, guarantees and commitments to extend credit. The risk involved is essentially the same as the credit risk involved in extending loan facilities to customers. These transactions are therefore subject to the same credit origination, portfolio maintenance and collateral requirements as for customers applying for loans.

Off-balance sheet financial instruments arise from forward and swap transactions undertaken in the foreign exchange and interest rate markets.

The contract amounts of these instruments indicate the volume of transactions outstanding as at the balance sheet date; they do not represent amounts at risk.

The credit risk weighted amounts are the amounts which have been calculated in accordance with the Third Schedule of the Banking Ordinance and guidelines issued by the Hong Kong Monetary Authority. The amounts calculated are dependent upon the status of the counterparty and the maturity characteristics of each type of contract.

Replacement cost is the cost of replacing all contracts which have a positive value when marked to market (should the counterparty default on its obligations) and is obtained by marking to market contracts with a positive value. Replacement cost is a close approximation of the credit risk for these contracts at the balance sheet date.

## REVIEW OF OPERATIONS

Shanghai Commercial Bank Limited ("the Group") registered a decrease of 11.4% in its consolidated profit attributable to shareholders for the first half of 2002. Owing to further significant narrowing of the net interest margin, the net interest income decreased by 11.7% as compared with the first half of 2001. The Group's other operating income increased by 5.0% owing to an increase in fee and commission income, whereas the operating expenses of the Group decreased slightly by 0.8%.

During the first half of 2002, the Group has continued to work hard on soliciting new business and enlarging its customer base. To broaden its range of services to small and medium-sized enterprises, the Group has launched a new loan product in the form of corporate tax loan and has participated in the SME Business Installations and Equipment Loan Guarantee Scheme which was launched by the Government in December 2001. In addition, the Group has also continued to focus on increasing its fee income by actively marketing a series of wealth management products. Apart from distributing a multitude of unit trusts and mutual funds offered by ten fund houses and a variety of insurance products offered by Hong Kong Life Insurance Ltd., a joint venture formed by the Group together with five other founding members of Bank Consortium Trust Co. Ltd. in May 2001, the Group has started marketing general insurance products using its own brand name, with the first one being offered in May 2002.
